Informed Consent for Chiropractic Care

I hereby request and consent to the performance of chiropractic adjustments and other chiropractic procedures including various modes of physical therapy modalities on me (or on the patient named below, for whom I am legally responsible) by the doctor(s) and/or anyone working in this office authorized by the doctor(s).

I further understand that such chiropractic services may be performed by the doctor(s) at Crosby Chiropractic Center and /or other licensed Doctors of Chiropractic who may treat me now or in the future at this office. I understand I will have the opportunity at any time in the office or over the phone to discuss with Dr. Chad Thornton and/or other office or clinic personnel the nature and purpose of chiropractic adjustments and other procedures related to my care, usually thoroughly covered in the first couple visits, and the doctor and trained staff will answer questions and concerns to the best of their abilities.

I understand that, as in the practice of medicine and all health care, while rare, the practice of chiropractic carries some risks to treatment; including, but not limited to: fractures, disc injuries, strokes (CVA), dislocations, and sprains/strains. I understand there is also a risk of some increased pain during the healing phase of my care, as my body begins to restore to normal health. I understand that this may be normal and sometimes expected and is therefore part of the overall healing process. I further acknowledge the risks of not following through with my prescribed treatment plan, whether started or not, which can include disc and spine degeneration, loss of mobility, loss of function, loss of muscle tone, muscles spasms, additional increasing pain, and possible interference with my regular activities of daily living. I can always choose to continue or discontinue care at any time and acknowledge and accept the results and/or consequences, accordingly.

I do not expect the doctor(s) to be able to anticipate and explain all risks and complications. Further I wish to rely on the doctor(s) to exercise judgment during the course of the procedures which the doctor(s) feel are in my best interests at the time, based upon the then known facts and in alignment with the professional standards of care. I understand that results are not guaranteed.

I have read, or have had read to me, the above consent and its contents, and by signing below, I agree to the treatment recommended by the doctor(s). I intend this consent form to cover the entire course of treatment for my present condition(s) and for any condition(s) for which I seek treatment at this facility in the future.
